### INVESTMENT OBJECTIVE AND STRATEGIES

The investment objective of CI Global REIT Class (the Fund) is to provide regular current income by investing substantially all of its assets in securities of CI Global REIT Fund (the Underlying Fund).

The investment objective of the Underlying Fund is to provide regular current income by investing primarily in real estate investment trusts (REITs) and equity securities of corporations participating in the residential and commercial real estate sector. These include corporations that own, manage, develop, finance and otherwise participate in the residential and commercial real estate industry. While the Underlying Fund will invest primarily in REITs and common equities, it may also invest in convertible debentures and trust units, as well as in fixed-income securities issued by real estate related corporations and government or other sovereign credits.

The Underlying Fund may also invest in structured products, either public or private, that hold real estate related securities, including mortgages, mezzanine debt or properties. The Underlying Fund has the ability to invest up to all of its assets in foreign securities.

For a complete discussion of the Fund's and the Underlying Fund's respective investment objective and strategies, please refer to the Fund's and the Underlying Fund's most recently filed simplified prospectus.

### RISK

No changes affecting the overall level of risk associated with investing in the Fund were made during the period/year. The risks of the Fund remain as discussed in the Fund's most recently filed simplified prospectus or its amendments. The Manager reviews the risk rating for the Fund on an annual basis, at a minimum, based on the methodology mandated by the Canadian Securities Administrators to determine the risk level of the Fund. Any change to the risk rating made during the period/year was as a result of such review and was not a result of any change to the investment objective, strategies or management of the Fund.

### RESULTS OF OPERATIONS

The Fund's net assets decreased by \$26.4 million to \$44.9 million from March 31, 2022 to March 31, 2023. The Fund had net redemptions of \$10.1 million during the year. The portfolio's performance decreased assets by \$12.6 million. The Fund paid distributions totalling \$3.7 million. Series A shares returned -19.0% after fees and expenses for the one-year period ended March 31, 2023. Over the same time period, the Fund's benchmark returned -14.2%. The benchmark is the FTSE EPRA/NAREIT Developed Total Return Index (the Benchmark or the Index).

The performance of the Fund's other Series is substantially similar to that of Series A shares, except for differences in the structure of fees and expenses. For the returns of the Fund's other Series, please refer to the "Past Performance" section.

The following commentary pertains to the results of operations of the CI Global REIT Fund (the Underlying Fund).

The year was characterized by inflation that was at the highest level in decades across most of the world's developed economies, largely caused by supply chain issues and COVID-19 pandemic-related stimulus. As a result, central banks around the world aggressively raised interest rates, with the U.S. Federal Reserve Board increasing its overnight rate from 0.50% to 5.00% over the year. This resulted in sharply higher and volatile bond yields. During the year, the 10-year U.S. Treasury yield increased from 2.34% to 3.47%, spiking to as high as 4.24% in the fall of 2022. Real estate securities were impacted as investors priced in higher capitalization rates, and therefore lower values, on increased debt costs.

The Underlying Fund underperformed its benchmark for the year. An overweight allocation to Canada detracted from the Underlying Fund's performance, as did an underweight allocation to Hong Kong. Overweight exposures to the U.S. single-family rental and life sciences segments of the market also detracted from the Underlying Fund's performance. The largest individual detractors from the Underlying Fund's performance were holdings in Tricon Residential Inc., Alexandria Real Estate Equities Inc. and Kilroy Realty Corp. Tricon Residential Inc., despite strong operating fundamentals, saw its shares decline as interest rates rose, resulting in higher financing costs. Alexandria Real Estate Equities Inc.'s share price declined amid supply concerns in a couple of its markets. Kilroy Realty Corp. saw its shares decline along with most other office real estate investment trusts (REITs) amid slowing leasing volumes and the ongoing uncertainty of the impact of hybrid work on future office demand.

From a geographic perspective, the Underlying Fund's underweight allocation to the United States contributed to performance, as did the Underlying Fund's underweight exposure to the United Kingdom. An overweight exposure to the gaming industry and the industrials sector also contributed to the Underlying Fund's performance. Top individual contributors to the Underlying Fund's performance were holdings in Switch Inc., VICI Properties Inc. and Vantage Towers AG. Switch Inc. benefited from its acquisition by DigitalBridge Group Inc. at a significant premium to the company's share price. VICI Properties Inc.'s stock performed well on solid operating results, an 8% dividend increase and its inclusion in the S&P 500 Index. Vantage Towers AG's stock rose as a deal was announced that will see a consortium led by private equity firms KKR & Co. Inc. and Global Infrastructure Partners buy the company at a premium.

## Management Report of Fund Performance for the period/year ended March 31, 2023

Elevated levels of inflation led to sharply higher interest rates, which increased the level of volatility in the REIT sub-sector. We added new Underlying Fund positions in Kimco Realty Corp., Boston Properties Inc. and Boardwalk REIT, and increased existing Underlying Fund holdings in Dream Industrial REIT, Camden Property Trust and Canadian Apartment Properties REIT. We eliminated Underlying Fund positions in Americold Realty Trust, Brookfield Corp. and Vantage Towers AG, and trimmed Underlying Fund positions in Invitation Homes Inc., Prologis Inc. and SF Real Estate Investment Trust.

Overall, the Fund underperformed its benchmark for the year.

### RECENT DEVELOPMENTS

Uncertainty exists on the direction of the economy, and the Underlying Fund remains positioned in asset classes that could be more defensive in a market downturn. With vacancy rates in many segments of the market still tight, construction activity slowing and interest rates likely to move lower in a recession, real estate may remain in solid shape. We believe any economic weakness will likely be more of a challenge for private real estate owners that typically operate with higher degrees of financial debt. At the end of the year, listed real estate was trading between a 15% and 20% discount to net asset value, a level that historically has represented an attractive buying opportunity.

### Independent Review Committee

Effective October 6, 2022, John Sheedy became a member of the Independent Review Committee (IRC) of CI Funds.

### Administrator

Effective July 18, 2022, RBC Investor Services Trust ceased acting as the administrator to the Fund and CIBC Mellon Global Securities Services Company started acting as the administrator to the Fund.

(1) This information is derived from the Fund's audited annual financial statements.

(2) Management expense ratio is calculated based on expenses charged to the Fund (excluding commissions and other portfolio transaction costs) and is expressed as an annualized percentage of daily average net assets for the period/year, including the Fund's proportionate share of any underlying fund(s) expenses, if applicable. The Effective HST tax rate is calculated using the attribution percentage for each province based on shareholder residency and can be different from 13%.

(3) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net assets during the period/year, including the Fund's proportionate share of such expenses of any underlying fund(s), if applicable.

(4) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the fiscal period/year. The higher a Fund's portfolio turnover rate in a period/year, the greater the trading costs payable by the Fund in the period/year, and the greater the chance of an investor receiving taxable capital gains in the period/year. There is not necessarily a relationship between a higher turnover rate and the performance of a Fund. Portfolio turnover rate is calculated by dividing the lesser of the cost of purchases and the proceeds of sales of portfolio securities for the period/year, and excluding cash and short-term investments maturing in less than one year, and before assets acquired from a merger, if applicable, by the average of the monthly fair value of investments during the period/year.

(5) This information is provided for the period(s)/year(s) ended March 31.
