Management Report of Fund Performance for the period/year ended March 31, 2023

This annual management report of fund performance contains financial highlights but does not contain the complete annual financial statements of the investment fund. You can get a copy of the annual financial statements at your request, and at no cost, by calling 1-800-792-9355, by writing to us at CI Investments Inc., 15 York Street, Second Floor, Toronto, ON, M5J 0A3 or by visiting our website at www.ci.com or SEDAR at www.sedar.com.

Securityholders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

INVESTMENT OBJECTIVE AND STRATEGIES

The investment objective of CI Real Income 1951-55 Class (the Fund) is to provide inflation-adjusted income and capital appreciation by primarily investing directly in nominal and real return fixed-income and/or equity securities or indirectly through investment in securities of underlying funds that have exposure to such securities. From the Fund's inception date through until its horizon date of December 2045, an increasing proportion of the Fund's assets will be invested directly or indirectly in nominal and real return fixed-income securities. The Fund is intended for those investors born between the years of 1951 and 1955. Within six months after the Fund's horizon date, it is expected that the Fund will, with the prior approval of the Independent Review Committee (IRC) and on written notice to investors, be combined with CI Real Income 1941-45 Class (to be renamed CI Real Income Class). CI Real Income Class will invest, directly or indirectly, in a portfolio comprised of nominal and real return fixed-income securities.

The Fund seeks to provide inflation-adjusted income that is designed for investors born between the years of 1951 and 1955, through monthly systematic withdrawals. Upon achieving the Fund's horizon date, the monthly systematic withdrawal will continue to apply to the investor's remaining investment.

The Fund will primarily invest, either directly or indirectly, in nominal and real return fixed-income and/or equity securities in accordance with the Fund's target allocations. At the inception date of the Fund, the asset mix will be between 50%-60% equities and 40%-50% fixed-income. The Fund's investment portfolio will be actively managed, and the portfolio advisor may increase or decrease such allocation based upon its view of the market and the best allocation to achieve the Fund's investment objective. However, as the Fund approaches its horizon date, it is expected to adjust its target asset mix to allocate an increasing amount of its assets towards fixed-income, with the expectation of reaching a target asset mix of between 10-30% equities and 70-90% fixed-income by its horizon date and thereafter. The fixed-income portion of the portfolio will consist of direct or indirect investment in primarily investment grade real return and nominal fixed-income securities with a credit rating of BBB or higher. The portfolio may also include non-investment grade securities of any type with a credit rating of BB or lower. The equity portion of the portfolio will consist of direct or indirect investment in equity securities of any type including, but not limited to, global equities, real estate investment trusts, infrastructure, energy and precious metals and materials. The Fund may invest up to all of the Fund's assets in securities of other mutual funds, including those managed by the CI Investments Inc., and has the ability to invest up to all of the Fund's assets in foreign securities.

The Fund currently achieves its investment objective by investing all of its assets in multiple underlying mutual funds (the Underlying Funds).

For a complete discussion of the Fund's and the Underlying Funds' respective investment objective and strategies, please refer to the Fund's and the Underlying Funds' most recently filed simplified prospectus.

RISK

No changes affecting the overall level of risk associated with investing in the Fund were made during the period/year. The risks of the Fund remain as discussed in the Fund's most recently filed simplified prospectus or its amendments. The Manager reviews the risk rating for the Fund on an annual basis, at a minimum, based on the methodology mandated by the Canadian Securities Administrators to determine the risk level of the Fund. Any change to the risk rating made during the period/year was as a result of such review and was not a result of any change to the investment objective, strategies or management of the Fund.

RESULTS OF OPERATIONS

The Fund's net assets decreased by \$0.6 million to \$3.0 million from March 31, 2022 to March 31, 2023. The Fund had net redemptions of \$0.4 million during the year. The portfolio's performance decreased assets by \$0.2 million. Series A shares returned -3.7% after fees and expenses for the one-year period ended March 31, 2023. Over the same time period, the Fund's benchmark returned -1.6%. The benchmark is a combination of the MSCI World Total Return Index - 50%, the FTSE Canada Real Return Bond Total Return Index - 30% and the FTSE Canada All Government Bond Total Return Index - 20% (the Benchmark or the Index).

The performance of the Fund's other Series is substantially similar to that of Series A shares, except for differences in the structure of fees and expenses. For the returns of the Fund's other Series, please refer to the "Past Performance" section.

The following commentary pertains to the results of operations of the Underlying Funds.

Central banks around the world continued to raise interest rates throughout the year. Headline inflation (i.e., Consumer Price Index) readings dropped moderately in the latter months of the year, but core measures remained elevated. This led central banks to act aggressively in their tightening of monetary policies. The Canadian and U.S. government bond yield curves began to invert as the year unfolded, in anticipation of weaker economic growth. Economic growth did slow in most interest rate-sensitive sectors as higher borrowing costs and tighter financial conditions impacted spending. However, labour markets remained tight, with low unemployment and strong nominal wage gains.

CI Real Income 1951-55 Class

Management Report of Fund Performance for the period/year ended March 31, 2023

The Fund underperformed its benchmark for the year. An overweight allocation to the utilities sector detracted from the Fund's performance, as did security selection in that sector.

An overweight allocation to the financials sector contributed to the Fund's performance, as did security selection within that sector. Selection within the consumer discretionary sector also contributed to the Fund's performance.

We increased the Fund's existing exposure to CI Real Long Term Income Trust and trimmed its holding in CI Real Mid Term Income Trust.

RECENT DEVELOPMENTS

We expect a further slowing of the economy, with a likely recession in 2023. Therefore, our positioning of the Fund will be biased toward longer-duration assets, with only tactical shifts and less exposure to credit.

Administrator

Effective November 14, 2022, RBC Investor Services Trust ceased acting as the administrator to the Fund and CIBC Mellon Global Securities Services Company started acting as the administrator to the Fund.

Independent Review Committee

Effective October 6, 2022, John Sheedy became a member of the Independent Review Committee (IRC) of CI Funds.

RELATED PARTY TRANSACTIONS

Manager, Portfolio Advisor and Registrar

CI Investments Inc. is the Manager, Portfolio Advisor and Registrar of the Fund. CI Investments Inc. is a subsidiary of CI Financial Corp. The Manager, in consideration for management fees, provides management services required in the day-to-day operations of the Fund. The Manager bears all of the operating expenses of the Fund (other than borrowing and interest costs, investor meeting costs (as permitted by Canadian securities regulation), the fees and expenses of the Independent Review Committee, the fees, costs and expenses associated with compliance with any new governmental and regulatory requirements imposed on or after February 16, 2018 and new governmental fees or with any changes to existing governmental and regulatory requirements imposed on or after February 16, 2018 (including increases to regulatory filing fees), any new types of costs, expenses or fees not incurred prior to February 16, 2018, including those arising from new government or regulatory requirements or related to those external services that were not commonly charged in the Canadian mutual fund industry as of February 16, 2018, and operating expenses that were or are outside the normal course of business of the Fund on or after February 16, 2018) in return for an administration fee.

Management fee and administration fee rates as at March 31, 2023, for the Series/Class or for each of the Series/Classes, as applicable, is/are shown below:

	Annual management fee rate (%)	Annual administration fee rate (%)
Series A	1.750	0.20
Series F	0.750	0.20
Series P	Paid directly by investor	0.15

The Manager received \$0.04 million in management fees and \$0.01 million in administration fees for the year.

Management Fees

Approximately 31% of total management fees were used to pay for sales and trailing commissions. The remaining 69% of management fees were used to pay for investment management and other general administration.

Related Fund Trading

Related fund trading occurs when a Fund purchases or sells units/shares of another Fund managed by the Manager. During the period/year ended March 31, 2023, the Fund engaged in related fund trading or held position(s) in related fund(s) at the end of the period/year.

Independent Review Committee

The Manager, in respect of the Fund, received the following standing instructions from the IRC with respect to related party transactions:

The applicable standing instructions require, amongst others, that related party transactions be conducted in accordance with the Manager's policies and procedures and applicable law and that the Manager reports related party transactions periodically to the IRC and advise the IRC of any material breach of such policies. The Manager's policies and procedures require that investment decisions in respect of related party transactions (a) are free from any influence by an entity related to the Manager and without taking into account any consideration relevant to an entity related to the Manager; (b) represent the business judgment of the Manager, uninfluenced by considerations other than the best interests of the Fund; (c) do not exceed the limitations of the applicable legislation; and (d) achieve a fair and reasonable result for the Fund.

Except as otherwise noted above under Related Party Transactions section, the Fund was not a party to any related party transactions during the period/year ended March 31, 2023. If the Fund invested in related party transactions, it relied on the IRC's standing instructions regarding related party transactions during this reporting period/year.

(1) This information is derived from the Fund's audited annual financial statements.

(2) Management expense ratio is calculated based on expenses charged to the Fund (excluding commissions and other portfolio transaction costs) and is expressed as an annualized percentage of daily average net assets for the period/year, including the Fund's proportionate share of any underlying fund(s) expenses, if applicable. The Effective HST tax rate is calculated using the attribution percentage for each province based on shareholder residency and can be different from 13%.

(3) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net assets during the period/year, including the Fund's proportionate share of such expenses of any underlying fund(s), if applicable.

(4) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the fiscal period/year. The higher a Fund's portfolio turnover rate in a period/year, the greater the trading costs payable by the Fund in the period/year, and the greater the chance of an investor receiving taxable capital gains in the period/year. There is not necessarily a relationship between a higher turnover rate and the performance of a Fund. Portfolio turnover rate is calculated by dividing the lesser of the cost of purchases and the proceeds of sales of portfolio securities for the period/year, and excluding cash and short-term investments maturing in less than one year, and before assets acquired from a merger, if applicable, by the average of the monthly fair value of investments during the period/year.

(5) This information is provided for the period(s)/year(s) ended March 31.

PAST PERFORMANCE

This section describes how the Fund has performed in the past. Remember, past returns do not indicate how the Fund will perform in the future. The information shown assumes that dividends made by the Fund in the period(s)/year(s) shown were reinvested in additional shares of the Fund or relevant Series/Classes of the Fund, as applicable. In addition, the information does not take into account sales, redemption, distribution or other optional charges that would have reduced returns or performance.

Year-by-Year Returns

The following chart/charts shows/show the Fund's annual performance for each of the period(s)/year(s) shown and illustrates/illustrate how the Fund's performance has changed from period/year to period/year. In percentage terms, the chart/charts shows/show how much an investment made on the first day of each financial period/year would have grown or decreased by the last day of each financial period/year, except where noted.

1 2017 return is for the period from July 04, 2016 to March 31, 2017.
