

# CI MOSAIC ETF PORTFOLIOS™

## At-a-Glance

CI Mosaic ETF Portfolios comprise five distinct portfolios designed to match your risk tolerance and investment objectives. A unique hybrid investment solution, the CI Mosaic program packages exchange-traded funds within a mutual fund structure. As a “fund of ETFs”, CI Mosaic ETF Portfolios provide all the benefits of an actively managed solution, including portfolio construction, asset allocation, rigorous oversight and effective risk management. Combined, these features can increase diversification, allow quick access to fast-moving market opportunities, and help reduce or manage risk.

Until the creation of a fund of ETFs, many mutual fund investors may not have been aware of the potential opportunities that ETFs can offer. CI Mosaic ETF Portfolios now make ETFs directly available through the convenience of a mutual fund vehicle.
