

## CI professionals recognized as TopGun Investment Minds

CI Investments Inc. ("CI") is pleased to announce that Signature Global Asset Management has been ranked as one of the top five TopGun investment teams in the 2013 Brendan Wood International Canadian investment rankings. In total, seven CI professionals have been named "TopGun Investment Minds" by the global advisory firm.

"It is an honour to receive this recognition," said Derek J. Green, CI President. "We are proud of our portfolio management teams and the expertise and experience they bring to our funds."

Brendan Wood International said TopGun status recognizes investment professionals "who on a competitive basis ranked highest for investment wisdom and professionalism." TopGuns are chosen by more than 700 investment industry analysts and sales professionals who work with the investment professionals on a daily basis.

There were 74 TopGuns selected in Canada this year. Three of CI's portfolio managers at Signature Global Asset Management achieved additional Platinum Class ranking based on number of votes and having been selected as TopGuns for at least four consecutive years.
