INVESTMENT OBJECTIVE AND STRATEGIES

The investment objective of the CI Global Smaller Companies Corporate Class (the Fund) is to provide long-term capital growth by investing primarily in common shares of companies located anywhere in the world.

The portfolio advisor may use techniques such as fundamental analysis to assess growth potential and valuation. This means evaluating the financial condition and management of each company, its competitiveness, its industry and the overall economy. As part of this evaluation, the portfolio advisor analyzes financial data and other information sources, assesses the quality of management and conducts company interviews.

For a complete discussion of the Fund's investment objective and strategies, please refer to the Fund's most recently filed simplified prospectus.

RISK

No changes affecting the overall level of risk associated with investing in the Fund were made during the period/year. The risks of the Fund remain as discussed in the Fund's most recently filed simplified prospectus or its amendments. The Manager reviews the risk rating for the Fund on an annual basis, at a minimum, based on the methodology mandated by the Canadian Securities Administrators to determine the risk level of the Fund. Any change to the risk rating made during the period/year was as a result of such review and was not a result of any change to the investment objective, strategies or management of the Fund.

RESULTS OF OPERATIONS

The Fund's net assets decreased by \$150.2 million to \$567.9 million from March 31, 2022 to March 31, 2023. The Fund had net redemptions of \$99.2 million during the year. The portfolio's performance decreased assets by \$50.9 million. The Fund paid distributions totalling \$0.1 million. Series A shares returned -7.6%, after fees and expenses for the one-year period ended March 31, 2023. Over the same time period, the Fund's benchmark returned -2.0%. The benchmark is the MSCI World Small Cap Total Return Index (the Benchmark or the Index).

The performance of the Fund's other Series is substantially similar to that of Series A shares, except for differences in the structure of fees and expenses. For the returns of the Fund's other Series, please refer to the "Past Performance" section.

During the year, inflation rose to the highest level experienced in decades, driven by the rapid recovery in consumer demand, tight supply chains and unprecedented monetary stimulus. Central banks shifted away from expansionary central bank monetary policy towards more restrictive policy, including raising interest rates. There were lingering economic ramifications of the COVID-19 pandemic, including renewed lockdowns in China, which have since been largely lifted. There was a sharp decline in the unemployment rate and widespread labour shortages. The outbreak of the Russia-Ukraine conflict caused a spike in the price of crude oil, natural gas, wheat, precious metals and other commodities. The rise in energy prices drove economic activity in oil-producing nations. The failures of SVB Financial Group and Credit Suisse Group AG in mid-March 2023 and resulting uncertainty drove significant losses in financials sector stocks, and energy sector stocks declined on fears of reduced demand in a potential recessionary environment.

The Fund underperformed its benchmark for the year. Underweight exposures to the energy, consumer staples and utilities sectors detracted from the Fund's performance. Overweight allocations to the industrials, consumer discretionary, information technology and communication services sectors also detracted from the Fund's performance. From a regional perspective, overweight allocations to the United Kingdom, Sweden, Canada and Italy detracted from the Fund's performance. Underweight allocations to the United States, Australia, Denmark, Austria, Finland, Hong Kong, Japan, Portugal and Spain also detracted from the Fund's performance. Notable individual detractors from the Fund's performance included holdings in Revolve Group Inc., Instalco AB, Asana Inc., Olaplex Holdings Inc., RS Group PLC, CONMED Corp., Breville Group Ltd., Bytes Technology Group PLC, Dye & Durham Ltd. and Altice USA Inc.

Top individual contributors to the Fund's performance included holdings in CSW Industrials Inc., Medpace Holdings Inc., BE Semiconductor Industries NV, Fortnox AB, Focus Financial Partners Inc., Autoliv Inc., Burford Capital Ltd., Texas Pacific Land Corp., Phreesia Inc. and Berry Global Group Inc.

RECENT DEVELOPMENTS

We expect elevated inflation to persist over the near term, and thus favour businesses that have sustainable competitive advantages that allow them to exercise pricing power. Globally, central banks have raised interest rates aggressively to combat inflation. This has put pressure on the valuations of high-growth information technology companies and companies in cyclical sub-sectors, including housing, luxury goods and industrial components. While we do not position the Fund based on specific macroeconomic factors, we believe the recent valuation pullback has presented compelling opportunities to build positions in high-quality companies within these spaces.

In our opinion, the Russia-Ukraine conflict has reshaped the global energy supply chain. The North American energy sector has benefited from elevated pricing and is well-positioned to ramp up volumes to alleviate the shortage of crude oil and natural gas, especially in Europe. However, we remain cognizant of potential offsetting pressure from demand destruction and the economic slowdown induced by central banks to tame inflation.

Consumer budgets have been pressured by elevated inflation and deteriorating housing affordability. While we remain cautious, we expect consumer spending will be fairly resilient amid excess savings accumulated during the COVID-19 pandemic, record home equity and low unemployment. We expect spending to remain especially resilient in travel, entertainment and experiences, which consumers were unable to enjoy during the pandemic.

We continue to favour companies that can endure any economic environment as well as businesses with short-term challenges that are trading at prices well below our estimate of their intrinsic value. We continue to place an emphasis on balance sheet resilience and liquidity, which enables businesses to continue investing through an economic downturn and ultimately emerge stronger when conditions recover.

⁽¹⁾ This information is derived from the Fund's audited annual financial statements.

⁽²⁾ Management expense ratio is calculated based on expenses charged to the Fund (excluding commissions and other portfolio transaction costs) and is expressed as an annualized percentage of daily average net assets for the period/year, including the Fund's proportionate share of any underlying fund(s) expenses, if applicable. The Effective HST tax rate is calculated using the attribution percentage for each province based on shareholder residency and can be different from 13%.

⁽³⁾ The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net assets during the period/year, including the Fund's proportionate share of such expenses of any underlying fund(s), if applicable.

⁽⁴⁾ The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the fiscal period/year. The higher a Fund's portfolio turnover rate in a period/year, the greater the trading costs payable by the Fund in the period/year, and the greater the chance of an investor receiving taxable capital gains in the period/year. There is not necessarily a relationship between a higher turnover rate and the performance of a Fund. Portfolio turnover rate is calculated by dividing the lesser of the cost of purchases and the proceeds of sales of portfolio securities for the period/year, and excluding cash and short-term investments maturing in less than one year, and before assets acquired from a merger, if applicable, by the average of the monthly fair value of investments during the period/year.

⁽⁵⁾ This information is provided for the period(s)/year(s) ended March 31.
