Risk rating
CI Investments Inc. has rated the volatility of this fund as medium.
Generally, the rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What is a Mutual Fund and What are the Risks of Investing in a Mutual Fund?" section of the fund's simplified prospectus.

No guarantees
Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.
Who is this fund for?
This fund may be suitable for you if you:

• want exposure to securities located anywhere in the world that exhibit strong environmental, social and governance (ESG) performance and that have a positive impact on the environment and society
• want an ESG investment that does not have exposure to energy-related fossil fuel reserves
• are investing for medium and/or long term
• can tolerate medium risk

A word about tax
In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws of where you live and whether you hold the fund in a registered plan, such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.
How much does it cost?
The following tables show the fees and expenses you could pay to buy, own and sell Series F securities of the fund. The fees and expenses — including any commissions — can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges
There are no sales charges applicable to your series of securities.

2. Fund expenses
You don't pay these expenses directly. They affect you because they reduce the fund series' returns.
As at September 30, 2019, the total fund series’ expenses were 0.89%. This equals $9.80 for every $1,000 invested.
